

FOR IMMEDIATE RELEASE

**PluroGen Therapeutics, Inc. Announces Its Participation at the
European Wound Management Association (EWMA) Conference 2014, 14 to 16 May in Madrid, Spain**

Norristown, PA. 7 May, 2014

PluroGen Therapeutics, Inc, an emerging leader in advanced wound care solutions, announced today that it will participate in the European Wound Management Association (EWMA) Conference in Madrid, Spain, May 14 – 16 2014. The conference will be organized in cooperation with Grupo Nacional para el Estudio y Asesoramiento en Úlceras por Presión y Heridas Crónicas (National Advisory Group for the Study of Pressure Ulcers and Chronic Wounds) (GNEAUPP) and Fundación Sergio Juan Jordán para la Investigación y el Estudio de las Heridas Crónicas (Foundation for investigation & study on chronic wounds).

The EWMA Conference offers high level scientific presentations, networking activities and an excellent opportunity to exchange knowledge and experiences with international colleagues. “PluroGen is very pleased with the outstanding patient results our products have provided to Doctors, Nurses and Patients in Europe” said Neal Koller, President and CEO. “PluroGen has expanded its distribution network to include 12 distributors in 14 countries and we are looking forward to continued solid growth and successful patient outcomes in Europe.”

PluroGen representatives will be available throughout the conference for one-on-one meetings with health care professionals at the PluroGen **Booth # 10B13**. To set up a meeting during the show, please email europe@plurogen.com.

About PluroGen Therapeutics

PluroGen Therapeutics, Inc. is a biotech company that provides clinically advanced topical anti-infective products for diabetic ulcers, chronic (non-healing) wounds and burns. The company developed its core family of PluroGel[®] products by utilizing its patent-protected PluroGel[®] Biomaterial. In working closely with doctors, nurses, patients and healthcare institutions, PluroGel[®] products have been routinely used with documented superior results on more than 14,000 patients in and outside of the USA. More information can be found on the company web site at www.plurogen.com. For PluroGen Investor Information please call +1 (610) 539-3670.

About European Wound Management Association

The European Wound Management Association (EWMA) was founded in 1991, and the association works to promote the advancement of education and research into native epidemiology, pathology, diagnosis, prevention and management of wounds of all aetiologies. Over 3000 practitioners and company representatives working with wound healing and wound management will be in attendance. Additional information on the conference can be found at www.ewma2014.org.

Safe Harbor Statement:

The statements in the press release that relate to PluroGen's (the company) expectations with regard to the future impact on the company's results from new products in development and any other statements not constituting historical facts are "forward-looking statements," within the meaning of and subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. Since this information may contain statements that involve risk and uncertainties and are subject to change at any time, the company's actual results may differ materially from expected results. This document may contain forward-looking statements concerning the Company's operations, current and future performance and financial condition. These items involve risks, contingencies and uncertainties such as product demand, market and customer acceptance, the effect of economic conditions, competition, pricing, the ability to consummate and integrate acquisitions, and other risks, contingencies and uncertainties which could cause the company's actual operating results, performance, business plans or prospects to differ materially from those expressed in, or implied by these statements. The Company undertakes no obligation to revise any of these statements to reflect the future circumstances or the occurrence of unanticipated events.
